Personal Statement

I am a Computer Games Programming student at the University of Gloucestershire, currently undertaking my second year of the course.

Throughout my time at the University of Gloucestershire, I have developed an understanding of C++ and C# programming. I am also confident with using source control to manage a project, using Bitbucket and SourceTree heavily during my first year. I have knowledge of multiple game engines, such as Unity, Unreal and Cry Engine.

I am hard-working and well-motivated, which allows me to pick up new skills quickly.

I enjoy working within a team, I am flexible, willing to learn and will be committed to the role whilst in employment.

I am a keen sportsman and have played a variety of sports throughout my life. I have played football for twenty years which has taught me the importance of teamwork and communication.

I was elected to be the social and tour secretary for the University of Gloucestershire Tennis Club, where it is my duty to organise all social events and ensure everyone is enjoying their time at university. This demonstrates my ability to communicate effectively with others as well as being able to manage my time and shows my organisational skills.

Secondary Education

School: Severn Vale School, School Lane, Gloucester, Gloucestershire GL2 4PR

Date: September 2003 – June 2008

Qualifications: Mathematics (AQA) – A*
Science and Additional Science (AQA) – AA
